A touch of the Continent has been discovered in a nearby city and the area has been selected as background for two sequences in the film. Permissions to photograph approximately ten scenes in one building and six scenes using the exteriors of others are being processed through the Chief, PS/AB/TR. It is hoped that these approvals will be granted without delay so that the schedule for shooting the entire film both locally and at the base can be maintained.

C. - Film No. 3

The first draft of this script has been reviewed by most of the technical advisors who are concerned with this operational phase of clandestine communications.
